Clinical Resource Packet

CHILD'S NAME	AGE / GRADE	DATE	COMPLETED BY

10 Key Screening Indicators (Sample Rubric)			
DEVELOPMENTAL SCREENING QUESTION	ALWAYS / USUALLY	SOMETIMES	RARELY / NEVER
1. Does your child look at you when you call his/her name?	[]	[]	[] (Risk)
2. Does your child point with index finger to show you something interesting?	[]	[]	[] (Risk)
3. Does your child make good eye contact when playing with you?	[]	[]	[] (Risk)
4. Does your child engage in pretend play (feeding a teddy, driving a toy car)?	[]	[]	[] (Risk)
5. Does your child bring objects over to you to show you?	[]	[]	[] (Risk)
6. Does your child flap hands, spin objects, or walk on tiptoes repetitively?	[] (Risk)	[]	[]

Screening vs Diagnosis: A positive result on a screening rubric indicates the need for formal developmental evaluation by a multidisciplinary team. It is not a clinical diagnosis.
