SOCIAL SCENARIO	WHAT CHILDREN OFTEN DO WRONG	COACHED ROLE-PLAY SCRIPT (PRACTICE 3 TIMES)
1. Joining an Active Game	Runs into the middle of the game and grabs the ball or demands they play a different game.	The "Watch & Comment" Rule: Stand near the game for 1 minute. Notice what they are playing. Say: "Cool game! Can I join on the next round?"
2. Handling Losing a Game	Accuses friends of cheating, throws game pieces, or cries and storms off.	The "Good Sportsmanship" Script: Take a deep belly breath. Look at winner, give high five or fist bump, and say: "Good game! You played well."
3. Conversational Turn-Taking	Talks for 10 minutes straight about trains or video games without checking if friend is listening.	The "2-Sentence Pass": Share 2 sentences about your topic, then pass the conversational ball by asking: "What do you like to play after school?"
4. When a Friend Needs Space	Keeps following a friend who is frowning or turning away.	Body Language Detective: Check their shoulders and face. If arms are crossed or they look away, say: "Looks like you need some quiet time. I'll catch you later!"

Parent Coaching Tip: Keep practice sessions playful and under 5 minutes. Praise the specific words used rather than vague compliments like "good job".
